

4-PART WEBINAR SERIES

# ELECTRIC SCHOOL BUSES

## Free Technical Support for School Districts

Join us for a four-part electric school bus webinar series covering planning, procurement, operations, training, and charging. Hosted by Louisiana Clean Fuels with support from WRI.

EVERY TUESDAY FROM MARCH 31 - APRIL 21, 2026 | 9:30 - 11:30 AM CENTRAL

**Tuesdays**  
9:30-11:30 AM

SCHEDULE

**MARCH 31**

### Part 1: Intro To Electric School Buses

The first webinar in this four-part series is designed for school districts considering electric school buses. Explore ESB benefits and challenges, major manufacturers, procurement steps, delivery timelines, and real-world insights from districts already operating electric fleets.

**APRIL 7**

### Part 2: Training Your Staff

In this session, you will learn how to prepare your team to operate and maintain electric school buses. Topics include staff training, safety, charging, maintenance, evolving roles, and practical insights from Louisiana districts and local dealers.

**APRIL 14**

### Part 3: Best Practices for Electric School Bus Operations

Managing maintenance, warranty, and parts considerations is critical for reliable electric school bus operations. Hear lessons from experienced districts, explore technical resources and peer networks, and gain practical strategies to keep buses in service, including considerations for Lion Electric models.

**APRIL 21**

### Part 4: Developing a Reliable Charging Plan for Electric School Buses

Developing a sustainable charging strategy requires thoughtful planning and coordination. Learn about charger types, equipment selection, charging schedules, safety fundamentals, and best practices from Louisiana utilities on infrastructure and timelines.
